# Valuable features of your coverage

## Roadside assistance

Simply call our toll-free number 24 hours a day, seven days a week for our sign-and-drive service offering up to \$50 per occurrence or up to \$150 for towing. Or, you can call your own provider and we will reimburse you up to these dollar limits.

## Rental car reimbursement

We will pay up to \$50 per day with a maximum of \$350 total for a rental vehicle when a covered breakdown occurs.

## Travel and lodging reimbursement

We reimburse your meals and lodging up to \$100 per day with a maximum of \$300 per occurrence, if you are stranded more than 100 miles from home due to a covered breakdown.

## Manufacturer's warranty deductible reimbursement

We reimburse up to \$100 toward your deductible for repairs covered by your factory warranty.

## Repair locations across the U.S. and Canada

Your dealership is generally your best option for repair service needs. However, you'll rest easy knowing that your coverage will be honored at thousands of locations throughout the United States and Canada.

## Future contract guarantee

If you still own your vehicle before your coverage expires, you may be able to purchase a new contract, subject to eligibility.

## Frequently Asked Questions

**Q: What does a vehicle service contract offer that a factory warranty doesn't?**

**A:** In the event of a mechanical breakdown, a vehicle service contract or VSC can help reduce your costs to repair or replace components that are not covered by the manufacturer's warranty. Our program also provides additional valuable benefits such as towing, rental car and emergency roadside assistance for covered breakdowns. The coverage continues until the expiration date of the contract or when the expiration odometer mileage is reached, whichever occurs first.

**Q: Can a vehicle service contract save me money?**

**A:** The advanced technology in today's vehicles has increased the complexity of even basic repairs. As a result, repair and labor costs are likely to continue increasing. The cost of just one significant repair could exceed the cost of purchasing a contract today.

**Q: Can the purchase price be included in my monthly vehicle payment?**

**A:** Yes, the cost of this coverage can usually be added to your monthly payment, but it can only be done when you purchase your vehicle. If you are financing your vehicle, ask your dealer for details.

**Q: What if I decide to sell my vehicle before the coverage expires?**

**A:** You may be able to transfer any remaining coverage to the next owner. The added value of a service contract may make it easier to sell your vehicle and could help you get a higher resale price.

**Q: Can I renew my coverage?**

**A:** If you still own your vehicle before your coverage expires, you may be able to purchase a new contract, subject to eligibility.

**The smart choice to help reduce out-of-pocket expenses**

Our coverage can help protect your future finances from these potentially high and unexpected expenses.

# Drive with confidence on the road ahead

With the advanced technology in today's vehicles, the costs of repairs tend to increase every year. Even one mechanical breakdown could leave you with a repair bill for thousands of dollars. Our coverage can help reduce these potentially high out-of-pocket expenses.

With our contract, you can be confident knowing that your coverage is valid throughout the United States and Canada. You can even choose from different lengths and types of coverage that best fit your driving habits and match your specific needs. Hopefully you'll never have a breakdown, but driving with a service contract can help reassure you while on the road.

## Potential repair costs

- Q: What should I do if my vehicle breaks down?**
- A:** If possible return to the dealership to determine the problem and cause of the breakdown—and, if needed, make sure to take advantage of your plan's towing benefit. Have the repair facility call before beginning any repairs. You pay for only your deductible and any costs not covered by your contract.
- Q: Where can I take my vehicle for repairs if I'm far from home?**
- A:** Your vehicle service contract will be accepted at thousands of licensed repair facilities throughout the U.S. and Canada. If you have a breakdown far from home, your towing benefit can help you get to a nearby repair facility. You will also be reimbursed for lodging, meals and rental car while your vehicle is in the shop for covered repairs.
- Q: What if I use my vehicle for commercial purposes, such as rideshare?**
- A:** Using a vehicle for hire to the public or to transport people for hire does not void your coverage, provided that the vehicle is titled in a personal name and is operated by one individual or multiple related individuals.
